By design, the Jinsei restaurant was intended to attract select discriminating patrons who appreciate a simple yet elegant dining experience. The lines are crisp and clean with rich finishes and materials that hint of pure Japanese vernacular. A perfect backdrop for Asian gastronomic offerings like Kobe beef, tempura, and flown-in fresh nigiri & sashimi.

Creative Architectural Solutions, partnered with a national branding design agency to make this suburban gem of a restaurant a reality. Now, a highly sought out and successful Birmingham destination, it has exceeded all expectations and will surely be repeated (and imitated). With seating of just over thirty patrons within the serpentine-shaped lounge area, the formal dining tables, and of course, the sushi bar, Jinsei offers a far more authentic dining experience, more akin to a destination one might expect to be found in a metropolitan city such as New York or San Francisco.
